SUMMARY

Full Stack Developer with hands-on experience in building responsive applications using Java, JavaScript, React, Spring Boot, and database integration with MySQL and PostgreSQL, with a strong passion for learning new technologies, writing clean and maintainable code, and working on real-world projects.

SKILLS

Programming Languages: Java, JavaScript
Backend Development: Spring Boot, Hibernate, Spring Security, RESTful APIs
Frontend Development: React, Redux Toolkit, React Context API, Vite, HTML, CSS, Tailwind
Database: MySQL, PostgreSQL, Redis
Tools: Git, GitHub, VS Code, IntelliJ, Postman, Docker
Soft Skills: Problem Solving, Team Collaboration, Adaptability, Quick Learner

EDUCATION

Galgotias University **2023 – 2027**
B.Tech in Computer Science, CGPA: 7.89 *Greater Noida, IN*

S.K.P. Vidya Vihar **2021 – 2022**
Intermediate - 70.4 *Deoghar, IN*

ST. XAVIER'S HIGH SCHOOL **2019 – 2020**
High School - 84.4 *Deoghar, IN*

PROJECTS

UrbanRide | *Java, Spring Boot, React, PostgreSQL, Redis* **Link**

- Developed a full-stack ride booking application using React.js and Spring Boot, implementing role-based access control (RBAC) for users and admins.
- Integrated map APIs for real-time location tracking and implemented dynamic fare estimation based on distance and route data.
- Designed and built RESTful APIs for ride requests, booking management, and user authentication, ensuring seamless frontend-backend communication.

Rezify | *Java, Spring Boot, MySQL, Hibernate, JWT, Redis* **Github**

- Built a Hotel Booking with secure user/admin authentication and complete booking workflows for smooth hotel management.
- Designed and implemented REST APIs using Spring Boot, Hibernate, MySQL, and JWT, ensuring structured data flow, efficient ORM handling, and security.
- Refined backend architecture using clean design principles, contributing to more maintainable and user-friendly system behaviour.

INTERNSHIP

Bluestock **Dec 2025 – Jan 2026**
SDE Intern *Remote*

- Implemented a secure admin login system using JWT for authentication and integrated Redux Toolkit to manage application state efficiently
- Built reusable custom hooks and API context for efficient state management and maintainability.
- Integrated RESTful APIs using Axios for seamless frontend-backend communication and dynamic data rendering.

CERTIFICATIONS

- Certified in DBMS with SQL - Oracle
- Postman API Fundamentals Student Expert - Postman

ACHIEVEMENTS

- Solved 900+ DSA questions on various platforms
